Kashipur Dasnagar Howrah: 711105

SKILLS

Languages: Java, JavaScript, C/C++

Programming: HTML, CSS, Material-UI

Databases: MySQL, Oracle SQL, MongoDB

Frameworks: NodeJS, Express, React, NextJs

PROJECTS

Pizza Restaurant Web-App:

This is a Full Stack Pizza Ordering app with Paypal and COD payment methods with a dedicated Admin page to manage your all orders and products.

The Technology Used: NextJs, MongoDB, React-Redux & Paypal.

Captiona - Social Media App:

This is a full fetched social media app where we can share posts, follow friends and chat with them.

The technology used: MongoDB, Express, React, Node JS

Live News App:

Here, I used a news API to fetch the latest news, display it according to its categories, and implement Pagination. This project helps me get familiar with 3rd party APIs and handling JSON.

Magic Notes-JavaScript Note App:

Here I applied my basic knowledge of HTML, CSS and JAVASCRIPT to make a beautiful notes app.

Chrome Extensions:

To-Do List: This extension helps your daily task. You can add a new task, mark it complete or delete the task if you want.

Web Scraper: This simple automation tool can click, input data, and copy a particular section from a website.

OBJECTIVE

To utilize my technical skills and provide a professional service to customers by applying and honing my knowledge and working in a challenging and motivating working environment.

EXPERIENCE

Feb 2022 -
Apr 2022

SLATEMATES

Software Developer Intern

Here I worked with Material-UI, and NextJs to develop different components for their website.

Sep 2020 -
Feb 2021

CAPGEMINI

Software Associate

Here I learnt about the Basic Windows and Linux Systems. Got exposure to the American clients, their accent.
